Job vacancy:
Robotic UI developer

Number of available position: 1

General information:

Location: **France, Roubaix**
Form of employment: **full time job**
Type of contract: **permanent**
Annual wage (Euro): **from 32000 to 40000**

Job description:

The Company's aim is to improve the lives of elderly people by creating a remote linking platform between them and their families, helpers, associations and doctors. Mediation is between a voice-activated robot and a web and mobile platform. Precursor of digital home health help, this device allows everyone to share quality time with elderly people through activities and services. What is the job? Your primary function is to work on the development of UI for our robot and his behavioral skills. What is required? You have a Bachelor degree in computer science or related field – or relevant work experience – in addition to 2+ years or a Master degree in computer science. You're fluent in written and oral English. If you're proficient with French or German, we'll be very happy.

Requirements:

- ✓ **General requirements**:
    - o EU28 + Norway or Iceland citizenships
    - o Residence in a EU28 country + Norway or Iceland (outside France)
    - o Between 18 and 35 years old
    - o Registered on EUJOB4EU Platform with a complete CV in English

- ✓ **Language knowledge**:
    - o Fluency in English (written and oral)
    - o Preferable knowledge of French or German

- ✓ **Other specific requirements:**
    - o UI javascript development : React, React Native, electron.io
   - o Middleware development : C++ , Raspberry Pi
    - o Behavioral development : OpenCV

ISCO Profile requested:

25 - Information and communications technology professionals
251 - Software and applications developers and analysts
2512 - Software developers

Procedure to participate in the selection:
